This is to certify that I examined the report of the treasurer of the Old Home Day committee and find the same correctly cast and properly vouched.

ARTHUR E. WRIGHT,  
Auditor.

Harrisville, N. H., Jan. 31, 1923.

## REPORT OF SCHOOL BOARD

---

Our schools are now in session and at the end of the school year will have kept thirty-six weeks. As our Superintendent has direct supervision over teachers and schools he will be in a position to give more intelligent information of the progress and needs of the schools than are the School Board.

The school at Eastview is under the instruction of Mrs. MacDonald, a teacher of experience who has taught here for some time. The parents have taken much interest in this school as their presence at all special exercises frequently attest. We have expended quite a sum here for repairs the past year, making the school-room more comfortable and attractive.

At Chesham the school-house was painted both inside and outside, repairs on the underpinning and several minor repairs to the rooms, which makes an exceptionally pleasant and attractive school-room. The teacher, Miss Ohlson, has managed the school to the satisfaction of the Board and community.

The schools at the Centre, under the instruction of Miss Mary Call and Miss Helena Call have shown a spirit of zeal and progress that calls for words of commendation. These teachers have the reputation of being hard workers and it is a well earned title. The parents have seemed interested in having good schools and have co-operated in bringing about such results.

At the present time fourteen of our grammar school graduates are attending higher schools.

The town has made liberal appropriations for its schools and we have endeavored to expend the money as judiciously as the exigencies of the time would permit.

**STATISTICS FOR SCHOOL YEAR 1921-1922**

Different pupils registered in the district during the year,	106
Different pupils registered elsewhere,	9
Non-resident pupils,	4
Half-days schools were actually in session,	338

BERTHA C. BEMIS,

Treasurer.

Harrisville, January 31, 1923.

---

This certifies that I have examined the above accounts of the treasurer of the school district and find them correctly cast and properly vouched.

ARTHUR E. WRIGHT,

Auditor.

Harrisville, N. H., Jan. 31, 1923.

## REPORT OF SUPERINTENDENT OF SCHOOLS

---

To the School Board and Citizens of Harrisville :

I submit my fourth annual report as superintendent of schools for the supervisory union number 38.

I. SCHOOL PROGRESS. In the district as a whole the progress of the schools during the school year 1921-1922 was fairly satisfactory. Every school in the district was open for the required thirty-six weeks. The teachers were, with a few exceptions, well qualified and did good work. The attendance was about the same as the state average. The number of pupils who failed of promotion to the next grade was small.

This year all schools opened on schedule and have suffered no interruptions up to this time. There was the usual number of changes in teachers, amounting to nearly one-half the whole number in the district, but the average quality of teachers is better than we have had in any year since the close of the World War. Attendance so far is even better than it was last year, except in a few localities where heavy snow has made it difficult for pupils who have long distances to go. The average attendance for the district for September was 96.3 per cent, for October the same; for November 98.2 per cent; and for December and part of January 96.8 per cent.

Improvements have been made this year along several lines: (1) The general guidance of teachers in organizing their schools have been made more effective and reports are required at frequent intervals showing the progress and quality

of the work in all classes as well as attendance. (2) A new series of Arithmetic texts has been introduced and for supplementary material the Studebaker Practice Tests provide practice in the four fundamental processes in an efficient and economical way. (3) The Houston method of writing, which was introduced last year on trial, has been extended to all the schools with full equipment of copy books and the results are apparent in an improvement in the quality of handwriting. (4) A spelling book is now in use that is not merely a list of words; it was prepared from a careful study of actual needs and the words are carefully graded, and an economical method of teaching is emphasized. (5) The new series of Geography texts by Brigham and McFarlane brings instruction in that subject up to date, both the maps and the text having been revised since the World War.

II. TEACHERS. The shortage of teachers existing throughout the state since the war has been relieved to a great extent; there are teachers enough to go around, but we have filled out the ranks with a large number of girls just out of high school with only one summer school session for professional training. The Normal Schools provide each year less than half enough trained teachers to meet the needs of the state, so that it is not possible to secure teachers for the rural schools from that source. Increased facilities at the Normal Schools, with the proposed new dormitories, is an imperative need.

Salaries have advanced somewhat year by year and the salaries of good teachers ought not to be less at any time than they are now, but the inexperienced and untrained teachers are paid too much in proportion. We must pay a living wage to all teachers employed but we ought not to pay one who has invested neither time nor money in preparation for her work as much as we pay one who has spent several years in special training.

We need just as good teachers in the rural schools as in

the village schools, and in the state aided towns we can pay them as much as the village teacher—when we can get the trained teacher.

III. SCHOOL FINANCES. It is the intent of the school law that was enacted in 1919 that the local expenditures for elementary schools throughout the state should be equalized. The following table shows to what extent this has been realized in the eight towns of this district, and the figures are fairly representative of the situation throughout the state. The figures are for the school year 1921-1922.

	Position in list of 256 towns	Elementary school cost per \$1,000.	State Aid payments per \$1,000.	Local expenditure per \$1,000.
Sullivan,	16th	\$12.30	\$7.37	\$4.93
Marlboro,	23rd	9.98	4.27	5.71
Gilsum,	27th	11.60	5.59	6.01
Surry,	152nd	6.85	.44	6.41
Harrisville,	189th	5.56	.01	5.55
Stoddard,	196th	6.02	none	6.02
Roxbury,	201st	5.59	none	5.59
Nelson,	228th	4.31	none	4.31

The table should be read as follows: In the list of 256 school districts in the state, arranged according to the expenditures per \$1,000 of equalized valuation **for all school purposes** in 1921-1922, Sullivan (for example) stood 16th, and the cost of **elementary schools** was equivalent to a tax of \$12.30 per \$1,000; of this amount the state paid \$7.37 in state aid, and the district paid \$4.93. (Surry and Harrisville did not receive the full amount for which their budgets were approved because the legislature of 1921 did not appropriate enough to meet all the approved budgets).

With improvements in the administration of the law with further experience, and especially if the legislature should

make its appropriations large enough to meet all approved demands, we may expect to find that local expenditures for maintenance of elementary schools will "level off" more nearly at a uniform figure that will be somewhat above \$5.00 per \$1,000.

In estimating the amounts necessary for the district to raise at the coming March meeting, the school boards should have the figures of the above table in mind and where necessary ask for more than the five-dollar tax. The amount of state aid to be allowed for next year cannot be known definitely until the legislature has passed the appropriation bill, but the State Board of Education has asked for a sum that will provide for the approved demands of all the districts as determined from the budgets submitted last September.

The amounts needed for the school year 1923-1924 (see the school board's estimates) may be divided into two groups; one group will consist of the statutory requirements for high school tuition and per capita tax to be assessed by the selectmen without any vote of the district, and the "excess salary" of the superintendent which is determined by the joint school boards of the district in May; the other group consists of the salaries of district officers and the general appropriation for support of schools, the estimates for which are subject to change by vote of the district at its March meeting.

**SCHOOL NEEDS.** You have nine pupils in high school this year with one to graduate and possibly three to enter next year. You will probably have about eleven to pay tuition on next year and the present rate is \$55 each, making \$605 to be assessed for that purpose. But there is a movement in the legislature to have that rate raised and until that matter is decided you cannot give the selectmen the exact figure. The per capita tax for next year will be \$222, as you have doubtless been notified by the State Treasurer. Your portion of the excess salary should be about the same as at present, say \$145.

These are the items of the budget for next year that are not subject to vote of the district. Probably the five-dollar tax will be somewhat larger than last year, as the Tax Commissioner has recommended an increase in the equalized valuation. The other items in the budget should be the same as last year.

An extra appropriation may be needed for repairs, as the Eastview schoolhouse may need to be shingled and you may find that a coat of paint is needed on the Village schoolhouse. Certainly some improvement should be made in the sanitary arrangements at the Village schoolhouse, and probably the most satisfactory solution will be the installation of chemical toilets. The four units needed would cost about \$350 delivered, at present prices, but I can give no estimate of the cost of installation. There is not room under the floor where the toilets are now, and probably a better place for them would be beside the stairways in the hall or in a separate building, which should however, be so arranged as to be approached from the schoolhouse only, and this does not appear to be possible on account of the nature of the school grounds.

Respectfully,

VERNON S. AMES,

Superintendent.

Marlboro, N. H., Feb. 14, 1923.

## VITAL STATISTICS

---

To the Selectmen:

In compliance with an act of the legislature, passed June session, 1887, amended by the legislature of 1889, requiring "clerks of towns and cities to furnish a transcript of the record of births, marriages and deaths to the municipal officers for publication in the Annual Report." I hereby submit the following:

BIRTHS REGISTERED IN THE TOWN OF HARRISVILLE, N. H., FOR THE YEAR ENDING DECEMBER 31, 1922.

Date of Birth	Name of Child (if any).	Sex and Condition.		Name of Father.	Maiden Name of Mother.	Occupation of Father.	Birthplace of Father.	Birthplace of Mother.	Age of Father.	Age of Mother.
